

CALL FOR PARTICIPATION

2nd Finnish-Russian Mobile Linux Summit Oulu, Finland, 4-5 October 2011

The 2nd Finnish-Russian Mobile Linux Summit provides a unique collaboration and education forum for all Mobile Linux matters. The summit brings together the best and brightest the Regional Mobile Linux communities have to offer; including core developers, administrators, end users, business executives, decision makers, operation and industrial experts.

The program consists of invited lectures by industrial and academic experts. Presentations and demos on MeeGo and other Mobile Linux systems are selected from the open call and will be given by the regional groups, invited FRUCT teams.

The summit is targeted to scale up cross-border cooperation between ICT experts and mobile developers from Russia and Finland, with particular focus on Oulu region and the Republic of Karelia. The key priority of the summit is to develop these communities. The summit is organized by Center for Internet Excellence, Petrozavodsk State University and Open Innovations Framework Program FRUCT. We warmly welcome you to take part in the summit, use the opportunity to share your research findings and development results, find new friends and partners, and help in developing the regional Mobile Linux community.

Call for papers and presentations

Please submit your full paper (up to 12 pages) and extended abstract (min 200 words, max 2 pages) for project in progress and poster/demo by September 12, 2011. All submitted papers will be reviewed by a technical committee. Please follow the provided paper templates. The list of conference topics is as follows:

- Open source cross-platform solutions projects for MeeGo OS
- Cross-platform development and improvement of Qt platform
- Comparative study of Mobile Linux platforms and solutions
- Open source projects and solutions for Android OS
- Open source projects and solutions for Maemo OS

The conference papers and abstracts will be published after the summit in the Proceedings of the 10th FRUCT conference. The registration form, paper templates (for LaTeX and MS Word), info on accommodation and more summit details can be found at <http://www.fruct.org/MobileLinux2>.

Free of charge registration by 20th September. Welcome!

This event is part of Karelia ENPI project KA179 co-funded by the European Union, the Russian Federation and the Republic of Finland.
