

# Improving Usability and Context Awareness over Fifth Generation Wireless Networks

Jussi Niutanen, [jussix.niutanen@intel.com](mailto:jussix.niutanen@intel.com)

PhD student at Tampere University of Technology, Intel Finland, Ixonos

15<sup>th</sup> FRUCT conference, April 24, 2014, St. Petersburg, Russia

# Presentation Topics

Title	Slide number
Intel Finland 1/2	2
Intel Finland 2/2	3
Background	4
Prototype Design	5
Use cases	6
Proposed architecture for adding context-awareness	7
Summary	8

# Intel in Finland Today

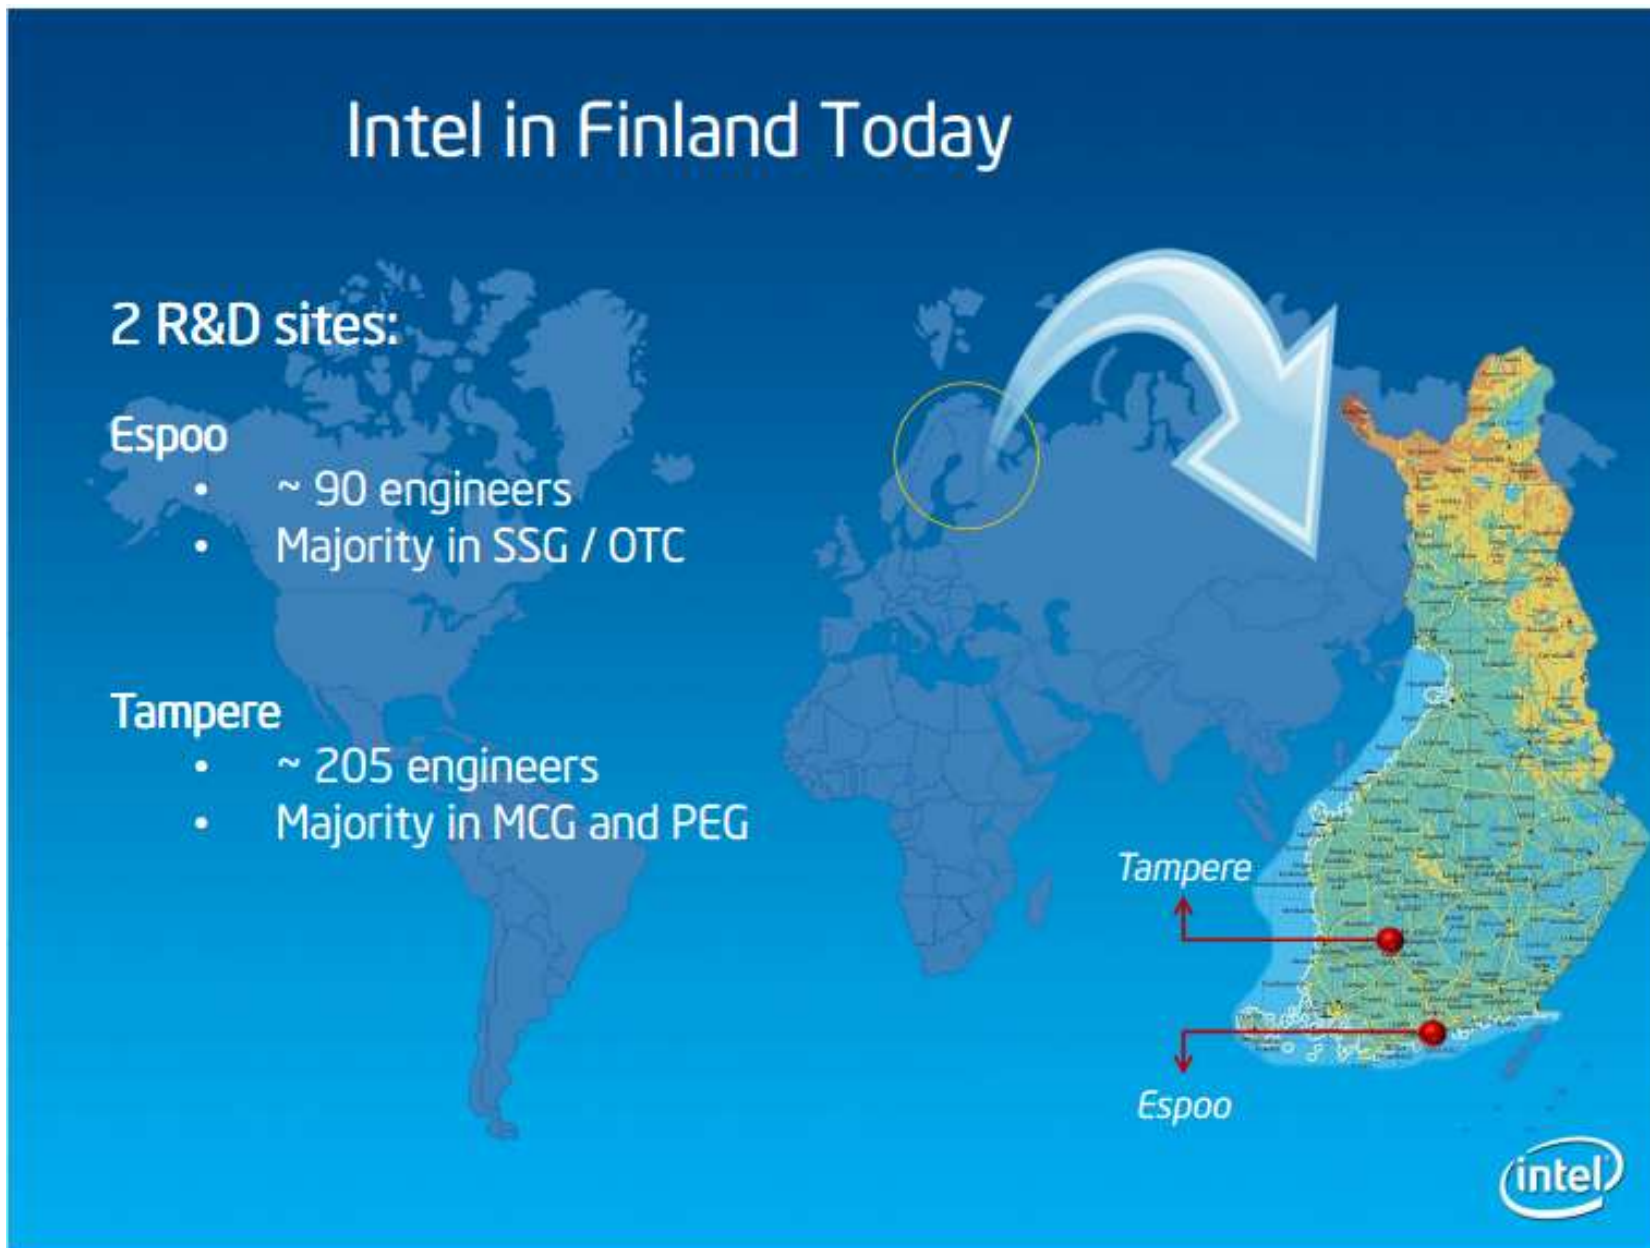

## 2 R&D sites:

### Espoo

- ~ 90 engineers
- Majority in SSG / OTC

### Tampere

- ~ 205 engineers
- Majority in MCG and PEG

# Intel in Finland

- Intel has had a presence in Finland since 1980 focusing on customer relations
- Strengthening its R&D capabilities, Intel has opened two R&D centers in 2011:

## Espoo / Westend

### Areas of Expertise:

- Core Enabling
- Graphics and Media
- Web Technologies
- System Software
- Software Solutions

## Tampere / Hermia

### Areas of Expertise:

- Software Developing (Camera, Security, Firmware, System Engineering, Validation, Test OS)
- Hardware & Mechanical Engineering
- Product Integration
- World-class Imaging Algorithm development
- Platform Architecture

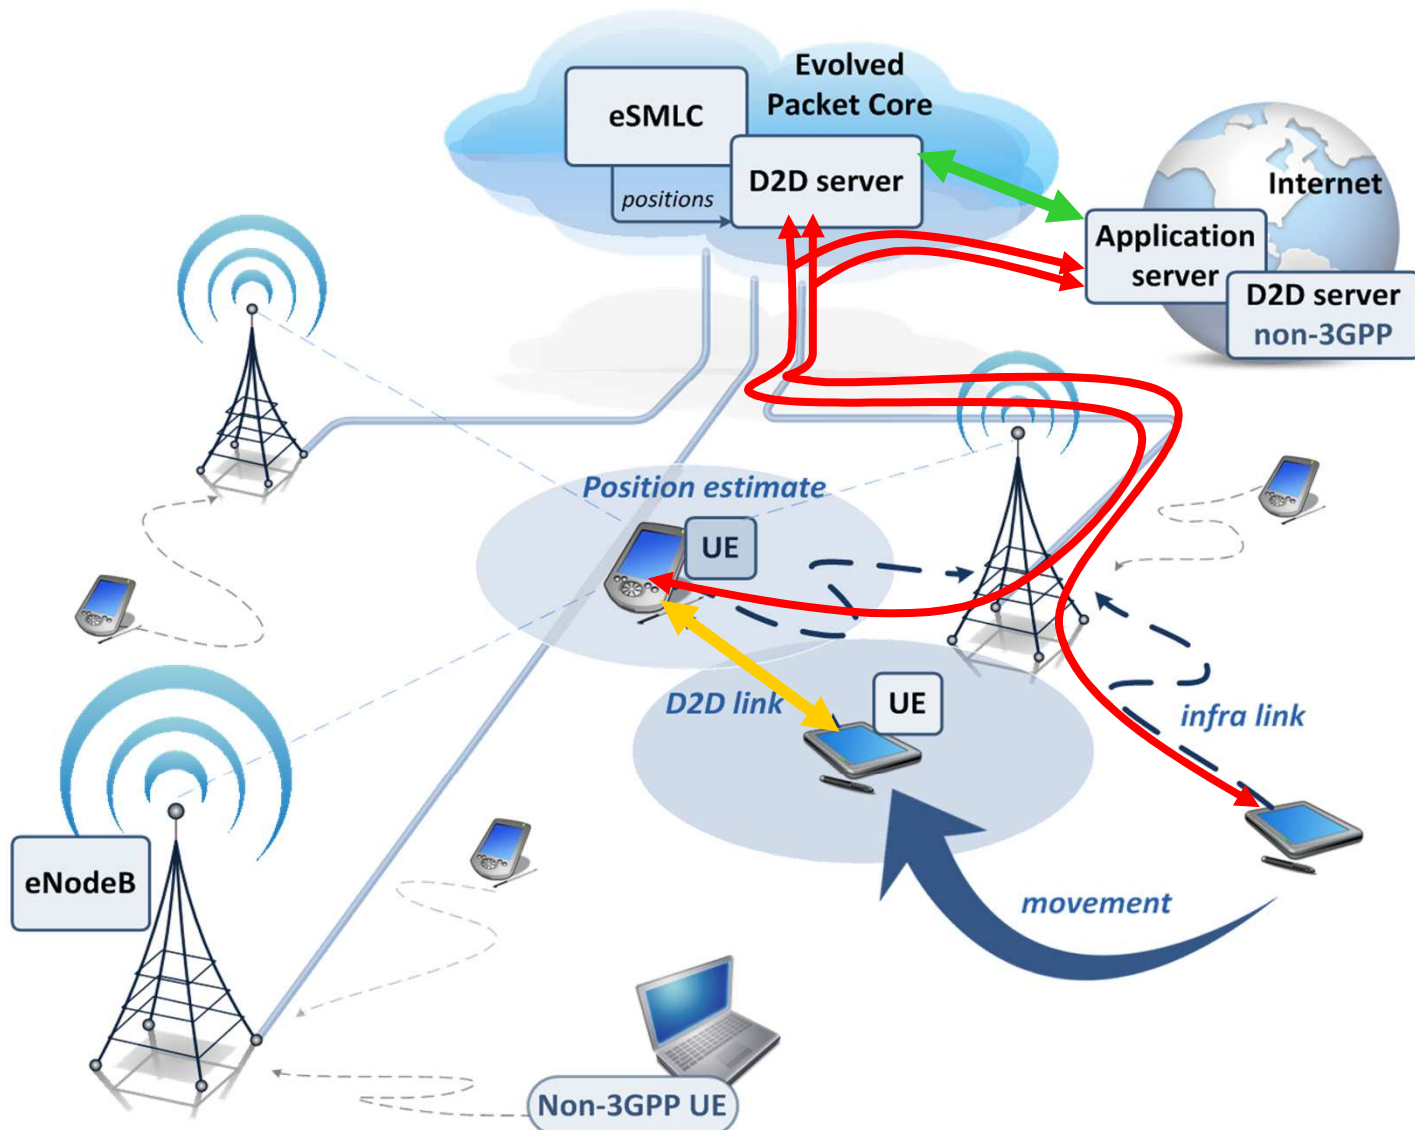

# The cellular problem

- Mobile traffic doubles annually
- Lot of differentiation on network experience
- Diversity of service requirements increasing from variation in devices, apps, usages, etc.

## Future needs

- Uniform network experience
- Establish context aware services.
- Fulfill needs for Quality of Experience

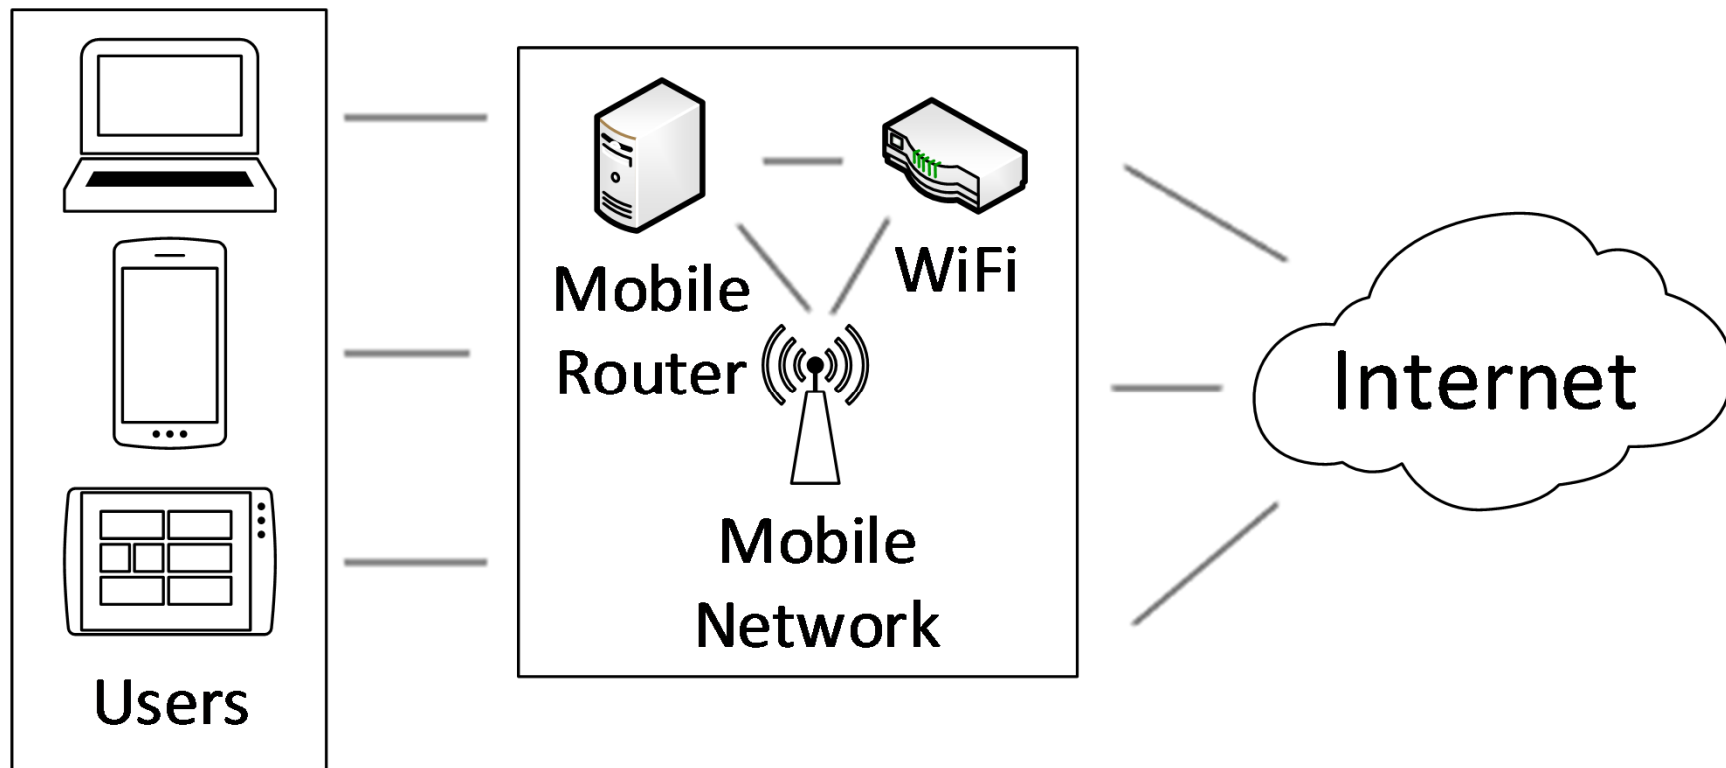

S. Andreev, A. Pyattaev, K. Johnsson, O. Galinina, and Y.Koucheryavy,  
 IEEE Communications Magazine, April, 2014.

# Example Use Cases for Device-to-Device communication

- Voice service
- Multimedia content sharing
- Group multicast
- Gaming
- Context-aware applications
- Safety and privacy applications

# Proposed architecture for adding context-awareness

The novelty is on Mobile router intelgency.

# Summary

- Lot of uses cases for context aware network experience
- Quality of Experience
- The best result will be done in co-operation

## Especial thanks

- 15<sup>th</sup> FRUCT conference
- Intel: Mr. Veli-Pekka Vatula and Ms. Shilpa Talwar
- Tampere University of Technology: Prof. Yevgeny Koucheryavy, Prof. Kaisa Väänänen-Vainio-Mattila and Dr. Sergey Andreev

Mobile and Communications Group
